NO. 212.

TO SET ASIDE DEED

DEPOSITIONS BEING TAKEN TODAY IN SUCH A SUIT.

75 ACRES ARE INVOLVED

The Title of the Suit is Florence Moon vs. Francis Workman et al.—Trial at Gallatin.

Depositions are being taken today in the circuit court room before Notary Public J. H. Sayler in the case of Florence Moon vs. Francis Workman et al., to set aside deed. The case is to be tried at Gallatin on Thursday, February 12, before Judge Davis, a change of venue having been taken from this county.

The plaintiff in her petition states that a deed made by David Workman to his father, John Workman, Sr., in November, 1887, to seventy-five acres of land northwest of Maryville should be set aside, and also another deed by David Workman to the same land in 1894, in which deed John Workman conveyed to David Workman the land for life, and upon the death of David Workman the land should go to the heirs living at the time of John Workman.

Both John Workman and his son, David Workman, are deceased, and Mrs. Moon is the only heir of David Workman. In 1887 the consideration for the land was \$700, says the petition, and the land is easily worth \$100 an acre today.

The petition alleges that the deeds should be set aside on account of the mentally incompetency of David Workman and the undue influence practiced upon him by his father, John Workman.

The testimony of fifteen witnesses was taken, showing the mental condition of David Workman.

W. E. Wiles is the attorney representing Mrs. Moon, and Shinnabarger, Blagg & Ellison are the attorneys for the defendants.

The plaintiff in the case, Francis Workman, is a son of John Workman.

THE PICKERING REVIVAL.

The Best That Has Ever Been Known in This Section of the State.

On the evening of February 1 the Methodist church in Pickering closed one of the most successful revival meetings in the history of the church and town. Some say the best known in Nodaway county. The pastor, Rev. S. P. Stillman, was assisted by Evangelist S. D. Goodale of Webster Groves, St. Louis, and Prof. John O. Olsen of Chicago as singer.

The meeting lasted four weeks, and during that time 150 bowed at the altar and professed faith in Christ, and 95 of these have already united with the Methodist church. The influence of the meeting is felt for miles around the town. Evangelist Goodale has assisted Pastor Stillman in six revival campaigns, and the meeting at Pickering was the best of all. Brother Goodale is a sound preacher of the Gospel, and his preaching is with power and in the demonstration of the Holy Ghost. He certainly gives to saint and sinner their portion in due season. Wherever he goes he leaves a favorable impression and the churches are strengthened. No church or community can make a mistake in securing him into conduct revival services. Then behind the work is the man—strong, devoted, consecrated, sweet-spirited, a God-sent man.

Prof. Olsen is a graduate of the Moody Institute and also a graduate from the American Conservatory of Music in Chicago. He is a man of God, a sweet singer of the Gospel. God is using him through his solos and singing otherwise in bringing many men to Jesus Christ. Brother Olsen's song services were highly appreciated by all.

RATES ON GRAVEL

PUBLIC SERVICE COMMISSION TO INVESTIGATE THEM.

IMPROPER ADJUSTMENT

Examination Indicates This, and J. H. Clary Made Complaint to Commission.

The public service commission of Missouri is to investigate into the rates charged by the Burlington Railroad company for the transportation of gravel for road purposes in Nodaway county, so a letter stated Thursday received by County Highway Engineer John H. Clary. Mr. Clary made a complaint to the public service commission a few weeks ago in regard to the rates on sand from Ashland, Neb., to certain points in this county, more especially to Maryville.

An examination of rates in effect indicate improper adjustment. The rate to Burlington Junction is \$1 per ton via Wabash, and to Braddyville 89 cents via C. B. & Q., while to Clearmont, via C. B. & Q. the rate is \$1.50 a ton. Again, the charge to Blanchard via the Wabash is 92 cents, and to Maryville the rate is \$1. Via the Burlington, the rate to Maryville is \$1.05, to Barnard \$1.15, to Bolckow \$1.65, to Maitland \$1.80, to Skidmore \$1.90, to Quitman \$1.90, to Burlington Junction \$1.50.

Most of the sand used for road purposes in the county comes from Ashland, Neb.

One of the members of the commission, John Kennish, in writing to Mr. Clary says:

"Although the movement of the freight is a question clearly interstate and not within the jurisdiction of our commission as to fixing rates, we are, nevertheless, authorized to investigate complaints as to interstate shipments, and I have turned over your letter with enclosures to the railway expert of our commission, who will take up the matter with the railway company immediately and inform you as to the result."

"EVERYBODY-GO-TO-CHURCH DAY"

Is SUNDAY, FEBRUARY 8

In Maryville. Choose any church, but go to church. Morning worship at 11 a. m. Evening worship at 7:30 p. m. Sunday school at 9:30 a. m.

PRACTICAL PREACHING.

The fact that church attendance has so largely fallen off in late years has greatly disturbed church people, and many have been the expedients tried for the purpose of reversing this condition, the latest being the "Go-to-church Sunday" movement which is now holding the attention and the hopes of so many religious people. Of this movement the Chicago Evening Post writes, editorially, as follows:

We are watching an interesting movement in Chicago. A concerted effort is being made to reinterest the people in the church. The effort is in itself an admission that there has been a drifting from the church, a growing indifference to its message and its claims.

Obviously little is to be gained by increasing the congregations for one day, and those who are so earnestly engaged in the present campaign would be greatly disappointed were that to prove the net result of their labor. The hope is that if a special effort can effect a contact between thousands of non-churchgoers and the church, the contact will deepen into a permanent relationship for many. If that hope is to be realized, there must be some consideration by the churches of the reasons for the popular indifference which it is now sought to overcome.

Men who are six days engaged in the struggle for existence, their minds burdened with the anxieties of providing for material wants, their hearts heavy with the compulsory service of mammon, their ideals battered and besmeared in the heat and mire of the conflict, ask of the church what hope it offers of emancipation from this thralldom.

It is a real thralldom. If men are to take interest again in spiritual things, they must find some way of freedom for their spirits. The needs of the body, not of choice but of necessity, so press upon them now that they have neither time nor space for spiritual exercise. The immediate concern is not the righteousness that will win them mansions in heaven, but the righteousness that will create better conditions on earth. Under existing conditions it is the merest mockery to say to a man with nothing but his job between him and hunger for himself and his family. "Take no thought for the morrow."

It is not enough to cry out that this is a materialistic age. The cry is a weary platitude on the ears of those who are the unwilling slaves of materialism. If the church is the spiritual force it claims to be, it must prove its claim by courageous and effective warfare against those conditions which have made men the servants of things rather than things the ministers of humanity.

Evidences are many that the church is awaking to this opportunity and obligation as never before. There are signs of a spiritual revival, not of the old heaven-and-hell type so much as of a God-and-my-neighbor kind. The Evening Post wishes success for the go-to-church movement, a success that will mean closer intimacy between the church and the masses of the people.

Communication

H. C. Hiles is Opposed.

Mr. Editor:—I think the newspaper men and bankers had better not let their zeal for the farmer's boys run away with their good sense. It might not be for the best interest of the boys. A young man who is taking the course in agriculture at Columbia called at my place last fall and in answering questions which I put to him said that if he were farming for himself he would not follow the methods adopted there. That it was too much on the peanut order for him. I think it is much better for boys to be educated on farms that pay their own way rather than on one that has to have support by the state each year. The fact is cities are tiresomely benevolent in their attempt to better the conditions of farm life in the country.

The country is splendidly capable of organizing its own social life and its financial affairs not by young men who go out from cities but by young men and women such as those who go home wholesome, high-minded and healthy young Americans, not as missionaries, but as democratic enthusiasts, capable of managing their own affairs.

The country is able to take care of itself.

Talked About Peace and War.

Miss Helen Leffler was the leader of the general conference of the Twentieth Century club Tuesday afternoon at the Elks club. "The Peace Movement" was the subject. The leader proved herself thoroughly conversant with her topic, and it was found to be the living topic of the day for America, as well as some of the rest of the world. The Panama canal, the Mexican and the new Russian treaty came in for good discussion, and when it was brought out how well armed France, Germany and Great Britain are, with America second only to Great Britain in equipment for war, it is discouraging. For America has always been a friend to arbitration, and to see her drifting away from that attitude in constant preparations for war by appropriations to a larger navy, disputes the position she has always held among the nations. Assisting Miss Leffler were Mrs. Rickenbrode, Mrs. C. D. Bellows, Mrs. Colbert and Miss Orear, who talked of "Our

Entertained Country Club.

The husbands of the L. I. club showed their appreciation of past occasions, by entertaining their wives and families at the home of Rufus Ringgold, ten miles north of Maryville Saturday evening to the number of forty throughout the evening. A play "Hans Von Smash," a two act farce, seven characters, thirty minutes play was given followed by a number of recitations and songs. At the close of the program the manager asked the ladies for any remarks or suggestions. The L. I. president, Mrs. Massie, arose and thanked the gentlemen for their most excellent program and entertainment and the club ladies joined together and to the tune of "Casey Jones," sang the following words composed by Mrs. Nannie Fakes:

The ladies of the L. I. C.
Invite their husbands to their jubilee
They're a jolly set and neatly dressed
And all enjoy having you their guest
They're good at entertaining good
cooks too,
They will serve you right, what ever
they do
So wash your face and come along
And join your wife in that happy
throng

Chorus

Ladies club (accompaniment,
Ladies club! Hurrah! Hurrah!
Ladies club,
We are members of the L. I. C.
They serve you pie, they serve you
cake
They serve you coffee to keep you
awake
Oysters stewed, and chicken fried
And ice cream cones along on the
side
They are numerous families as you will
see
Gillispie's number one and three
Anderson's five, six and seven.
Blackney's make the sum of eleven.
Chorus

Dowling's are coming down the line
Pope's are following close behind
Massie's are trying to keep the pace
Ringgold's are hoping to win the
race

Florea's are coming bobbing along
Singing a merry, joyous song
DeWolf's are a jolly couple too
Fakes' are trying to be true.
Chorus

But the husbands had got wise and followed by singing the following to the tune, "Marching Through Georgia" composed by Rufus Ringgold.
Come and bring your music boys
And sing another song

MARK HAS TWO WHITE 'POSSUMS.

Maryville Man Can Go One Better
Than the President—He Kept the
Groundhog In, Too.

The city papers are making extraordinary mention about the white 'possum that was sent to President Woodrow Wilson a few days ago by two of his sporting friends.

That's nothing. Mark Turner of Maryville has two white 'possums that were sent to him quite awhile ago by some Kansas City friends. You ought to see them, boys and girls.

They are as fat and lazy as 'possums ought to be and don't like it a bit to be disturbed. But the 'possums are not any attraction at all compared with his five wee white baby mice that haven't their eyes open yet. They are so tiny and cute that one can't tell how little and cute they are. They are about three-quarters of an inch long and are just as clean, and their weeny toes so pink that they are the daintiest things one can think about. They are sleeping these days, and when they begin to see some funny things are expected. The little father and mother mice are quite small as mice go, and they have lots of fun running about the cage and playing spin, at least that is supposed to be the game, for they spin around and around so fast one wonders how they do it. They go as fast as a top, almost.

We went in to see Mark's menagerie yesterday and it was certainly funny to hear all the animals and birds and things that are there. The minute Mr. or Mrs. Turner step in the monkeys begin to chatter and the parrots to shriek and make a fuss, especially the rose parrot. She has a beautiful rose comb that she spreads and raises up high with pride, and she certainly looks nifty in the soft rose colored feathers that cover her neck and come down over her shoulders. All the rest of her feathers are a soft gray, and she is real modest looking when she is sitting quiet. The other parrot is all white, excepting a yellowish tinge to her comb, which she likes to fuss up when anybody comes.

The monkey they call "Grandpa," looks like a little old man. He puts his hand through the cage and slaps it on the table to attract attention, just as a person would do, and he gets it. Then he begs in an inimitable way for nuts and candy, and then turns every kind of a somersault in return for them. He likes to drink out of a cup by himself, and when he has a piece of bread he dips it in water and soaks it a little to make it soft before eating. He seems to be getting old and his teeth must be defective. Wonder where he learned that trick? The children of Germany are allowed to do that, so he must be a little Dutch monkey.

10-CENT "CASCARETS"

IS YOUR LAXATIVE.

Best Liver and Bowel Cleanser and
Stomach Regulator in the World—
Work While You Sleep.

Get a 10-cent box.

Put aside—just once—the salts, pills, castor oil or purgative waters which merely force a passageway through the bowels, but do not thoroughly cleanse, freshen and purify these drainage organs, and have no effect whatever upon the liver and stomach.

Keep your "insides" pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken, and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have headache, biliousness, coated tongue, indigestion, sour stomach or constipated bowels. Cascarets belong in every household. Children just love to take them.—Advertisement.

There are two monkeys in another cage and they have the time of their lives all the time. One tried to make the other give up his peanut when we were there. He stood him on his head and pummeled him good and slapped his jaws, but Mr. Monkey held on and kept on eating as though nothing very much was bothering him.

Oh, yes. We learned how it happened the groundhog didn't see his shadow and thereby bring six weeks of storm and snow and cold. Mark has all both of them clear back in the dark part of his basement and they didn't have a single opportunity to see their shadows, so Spring will be here soon. They didn't even offer to see their shadows and they are cross if you wake them up. We had never seen one, so Mark punched them up a little and they grunted and were as mad as they could be. By the light of a candle they are not bad looking, just dark, lazy and ugly looking, but their stand up fuzzy fur makes them look funny.

The badger that came not long ago from North Dakota is real good looking if only he would behave better. But he growls and flattens himself like he was dying to get at you and eat you up, and we went off and left him. The prairie dogs, the black eagle, and the alligator that hasn't had a bite to eat since last October, he'll begin in March though, had something interesting

about them. But the monkeys and parrots were by far the funniest things of all. They could cheer up the whole world if they wanted too. But those cute little mice are the funniest things ever.

Now don't all you boys and girls go at once to see them. Wait till they get their eyes open and can play spin with their father and mother. And don't all go at once. Go one at a time for Mark can't let you all in for fear you would disturb things. The badger might get loose or the alligator get out and take a notion to eat while you are there, if all go at once. MUNITIONS TAKEN OVER LINE

Initial Shipment Since Embargo Lifted
Hauled Across Bridge.

El Paso, Tex., Feb. 5.—The first shipment of arms since the embargo was lifted by President Wilson was hauled across the bridge from El Paso to Juarez in an express wagon. The wagon contained only 37,000 rounds of ammunition and seventy rifles, representing the entire stock of a local dealer, but large quantities of fighting weapons have been ordered by rebel agents, and are soon to be shipped south for the rebel attack on Torreon.

Orders to permit the passage of arms to the Mexican belligerents were received by both the United States army and customs officials. The order came so suddenly that the rebel leaders at Juarez were unprepared for it, for they said, had they been prepared large supplies would have been held in readiness on the American side. It was stated that the next few weeks will witness shipments to Juarez as rapidly as carloads can be brought to El Paso.

WOULD FORCE ANSWERS

Commission Tells Why It Wants Data From Armour Lines.

Chicago, Feb. 5.—The United States district court was asked to compel Frederick W. Ellis, vice president of the Armour car lines, to answer questions propounded by the interstate commerce commissioners relative to the business done by his company.

The clash between the car line official and the interstate commerce commission came in the inquiry by the commission into private car lines.

The petition recites that because of evidence given the commission concluded that it was its duty to inquire into the relations of the private car line and the packing company, to determine whether concessions in rates were being given and received.

The commissioners set forth they desire to ascertain whether Armour & Co. was controlling the Armour car lines through stock ownership or other means and using them as a device to obtain concessions in the published rates of transportation. They also seek by the questions to learn whether the packing company obtained rates less than those paid by others for like service, or whether the Armour car lines was receiving unreasonable compensation from railroads for refrigeration service which inured to the benefit of Armour & Co.

MARYVILLE, MISSOURI, THURSDAY, FEB. 5, 1914.

NO. 212.

TO SET ASIDE DEED

DEPOSITIONS BEING TAKEN TODAY IN SUCH A SUIT.

75 ACRES ARE INVOLVED

The Title of the Suit is Florence Moon vs. Francis Workman et al.— Trial at Gallatin.

Depositions are being taken today in the circuit court room before Notary Public J. H. Saylor in the case of Florence Moon vs. Francis Workman et al., to set aside deed. The case is to be tried at Gallatin on Thursday, February 12, before Judge Davis, a change of venue having been taken from this county.

The plaintiff in her petition states that a deed made by David Workman to his father, John Workman, Sr., in November, 1887, to seventy-five acres of land northwest of Maryville should be set aside, and also another deed by David Workman to the same land in 1894, in which deed John Workman conveyed to David Workman the land for life, and upon the death of David Workman the land should go to the heirs living at the time of John Workman.

Both John Workman and his son, David Workman, are deceased, and Mrs. Moon is the only heir of David Workman. In 1887 the consideration for the land was \$700, says the petition, and the land is easily worth \$100 an acre today.

The petition alleges that the deeds should be set aside on account of the mental incompetency of David Workman and the undue influence practiced upon him by his father, John Workman.

The testimony of fifteen witnesses was taken, showing the mental condition of David Workman.

W. E. Wiles is the attorney representing Mrs. Moon, and Shimbargar, Blagg & Ellison are the attorneys for the defendants.

The plaintiff in the case, Francis Workman, is a son of John Workman.

THE PICKERING REVIVAL.

The Best That Has Ever Been Known in This Section of the State.

On the evening of February 1 the Methodist church in Pickering closed one of the most successful revival meetings in the history of the church and town. Some say the best known in Nodaway county. The pastor, Rev. S. P. Stillman, was assisted by Evangelist S. D. Goodale of Webster Groves, St. Louis, and Prof. John O. Olsen of Chicago as singer.

The meeting lasted four weeks, and during that time 160 bowed at the altar and professed faith in Christ, and 95 of these have already united with the Methodist church. The influence of the meeting is felt for miles around the town. Evangelist Goodale has assisted Pastor Stillman in six revival campaigns, and the meeting at Pickering was the best of all. Brother Goodale is a sound preacher of the Gospel, and his preaching is with power and in the demonstration of the Holy Ghost. He certainly gives to saint and sinner their portion in due season. Wherever he goes he leaves a favorable impression and the churches are strengthened. No church or community can make a mistake in securing him into conduct revival services. Then behind the work is the man—strong, devoted, consecrated, sweet-spirited, a God-sent man.

Prof. Olsen is a graduate of the Moody Institute and also a graduate from the American Conservatory of Music in Chicago. He is a man of God, a sweet singer of the Gospel. God is using him through his solos and singing otherwise in bringing many men to Jesus Christ. Brother Olsen's song services were highly appreciated by all.

RATES ON GRAVEL

PUBLIC SERVICE COMMISSION TO INVESTIGATE THEM.

IMPROPER ADJUSTMENT

Examination Indicates This, and J. H. Clary Made Complaint to Commission.

The public service commission of Missouri is to investigate into the rates charged by the Burlington Railroad company for the transportation of gravel for road purposes in Nodaway county, so a letter stated Thursday received by County Highway Engineer John H. Clary. Mr. Clary made a complaint to the public service commission a few weeks ago in regard to the rates on sand from Ashland, Neb., to certain points in this county, more especially to Maryville.

An examination of rates in effect indicate improper adjustment. The rate to Burlington Junction is \$1 per ton via Wabash, and to Braddyville 89 cents via C. B. & Q., while to Clearmont, via C. B. & Q. the rate is \$1.50 a ton. Again, the charge to Blanchard via the Wabash is 92 cents, and to Maryville the rate is \$1. Via the Burlington, the rate to Maryville is \$1.05, to Barnard \$1.15, to Bolckow \$1.65, to Maitland \$1.80, to Skidmore \$1.90, to Quitman \$1.90, to Burlington Junction \$1.50.

Most of the sand used for road purposes in the county comes from Ashland, Neb.

One of the members of the commission, John Kennish, in writing to Mr. Clary says:

"Although the movement of the freight is a question clearly interstate and not within the jurisdiction of our commission as to fixing rates, we are, nevertheless, authorized to investigate complaints as to interstate shipments, and I have turned over your letter with enclosures to the railway expert of our commission, who will take up the matter with the railway company immediately and inform you as to the result."

"EVERYBODY-GO-TO-CHURCH DAY"

Is SUNDAY, FEBRUARY 8 In Maryville.

Choose any church, but go to church. Morning worship at 11 a. m. Evening worship at 7:30 p. m. Sunday school at 9:30 a. m.

PRACTICAL PREACHING.

The fact that church attendance has so largely fallen off in late years has greatly disturbed church people, and many have been the expedients tried for the purpose of reversing this condition, the latest being the "Go-to-church Sunday" movement which is now holding the attention and the hopes of so many religious people. Of this movement the Chicago Evening Post writes, editorially, as follows:

We are watching an interesting movement in Chicago. A concerted effort is being made to reintroduce the people in the church. The effort is in itself an admission that there has been a drifting from the church, a growing indifference to its message and its claims.

Obviously little is to be gained by increasing the congregations for one day, and those who are so earnestly engaged in the present campaign would be greatly disappointed were that to prove the net result of their labor. The hope is that if a special effort can effect a contact between thousands of non-churchgoers and the church, the contact will deepen into a permanent relationship for many. If that hope is to be realized, there must be some consideration by the churches of the reasons for the popular indifference which it is now sought to overcome.

Men who are six days engaged in the struggle for existence, their minds burdened with the anxieties of providing for material wants, their hearts heavy with the compulsory service of mammon, their ideals battered and besmeared in the heat and mire of the conflict, ask of the church what hope it offers of emancipation from this thralldom.

It is a real thralldom. If men are to take interest again in spiritual things, they must find some way of freedom for their spirits. The needs of the body, not of choice but of necessity, so press upon them now that they have neither time nor space for spiritual exercise. The immediate concern is not the righteousness that will win them mansions in heaven, but the righteousness that will create better conditions on earth. Under existing conditions it is the merest mockery to say to a man with nothing but his job between him and hunger for himself and his family. "Take no thought for the morrow."

It is not enough to cry out that this is a materialistic age. The cry is a weary platitude on the ears of those who are the unwilling slaves of materialism. If the church is the spiritual force it claims to be, it must prove its claim by courageous and effective warfare against those conditions which have made men the servants of things rather than things the ministers of humanity.

Evidences are many that the church is awaking to this opportunity and obligation as never before. There are signs of a spiritual revival, not of the old heaven-and-hell type so much as of a God-and-my-neighbor kind. The Evening Post wishes success for the go-to-church movement, a success that will mean closer intimacy between the church and the masses of the people.

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Beautify Your Hair! Make It
Soft, Fluffy and Luxuriant—Try
the Moist Cloth.

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you will see new hair, fine and downy at first—yes, but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all.—Advertisement.

Communication

H. C. Hiles is Opposed.

Mr. Editor:—I think the newspaper men and bankers had better not let their zeal for the farmer's boys run away with their good sense. It might not be for the best interest of the boys. A young man who is taking the course in agriculture at Columbia called at my place last fall and in answering questions which I put to him said that if he were farming for himself he would not follow the methods adopted there. That it was too much on the peanut order for him. I think it is much better for boys to be educated on farms that pay their own way rather than on one that has to have support by the state each year. The fact is cities are tiresomely benevolent in their attempt to better the conditions of farm life in the country.

The country is splendidly capable of organizing its own social life and its financial affairs not by those who go out from cities but by young men and women such as those who go home wholesome, high-minded and healthy young Americans, not as missionaries, but as democratic enthusiasts, capable of managing their own affairs.

The country is able to take care of itself.

Talked About Peace and War.

Miss Helen Leffler was the leader of the general conference of the Twentieth Century club Tuesday afternoon at the Elks club. "The Peace Movement" was the subject. The leader proved herself thoroughly conversant with her topic, and it was found to be the living topic of the day for America, as well as some of the rest of the world. The Panama canal, the Mexican and the new Russian treaty came in for good discussion, and when it was brought out how well armed France, Germany and Great Britain are, with America second only to Great Britain in equipment for war, it is discouraging. For America has always been a friend to arbitration, and to see her drifting away from that attitude in constant preparations for war by appropriations to a larger navy, disputes the position she has always held among the nations. Assisting Miss Leffler were Mrs. Rickenbrode, Mrs. C. D. Bellows, Mrs. Colbert and Miss Orear, who talked of "Our

A House Party.

Miss Helen Helply entertained at the home of Mr. and Mrs. Gaylord Dilts Tuesday evening in honor of her sister, Miss Orlena Helply, who is spending the week with her. Various games were played. Perhaps the most exciting one was the hurdle race by Carroll Hogan and Warren Reaksecker, the latter being the winner. Also a 50-yard dash by Miss Orlena Helply and Miss Neva Reaksecker, Miss Helply winning. Music was furnished by Mr. Will Saunders, after which a two-course luncheon was served.

The guests present were Mr. and Mrs. Gaylord Dilts, Mr. and Mrs. Wilse Ellsworth, Misses Minnie Fox, Martha Ellsworth, Vernie Coler, Beulah Renshaw, Mildred Renshaw, Mildred Palmer, Neva Reaksecker, Orlena Helply, Messrs. Entertained Country Club.

The husbands of the L. I. club showed their appreciation of past occasions, by entertaining their wives and families at the home of Rufus Ringgold, ten miles north of Maryville Saturday evening to the number of forty throughout the evening. A play "Hans Von Smash," a two act farce, seven characters, thirty minutes play was given followed by a number of recitations and songs. At the close of the program the manager asked the ladies for any remarks or suggestions. The L. I. president, Mrs. Massie, arose and thanked the gentlemen for their most excellent program and entertainment and the club ladies joined together and to the tune of "Casey Jones," sang the following words composed by Mrs. Nannie Fakes:

The ladies of the L. I. C.
Invite their husbands to their jubilee
They're a jolly set and neatly dressed
And all enjoy having you their guest
They're good at entertaining good
cooks too,
They will serve you right, what ever
they do
So wash your face and come along
And join your wife in that happy
throng

Chorus

They serve you pie, they serve you

They serve you coffee to keep you

And ice cream cones along on the

Ringgold's are hoping to win the

Florea's are coming bobbing along
Singing a merry, joyous song
DeWolf's are a jolly couple too
Fakes' are trying to be true.
Chorus

But the husbands had got wise and followed by singing the following to the tune, "Marching Through Georgia" composed by Rufus Ringgold.
Come and bring your music boys
And sing another song

MARK HAS TWO WHITE 'POSSUMS.

Maryville Man Can Go One Better
Than the President—He Kept the
Groundhog in, Too.

The city papers are making extraordinary mention about the white 'possum that was sent to President Woodrow Wilson a few days ago by two of his sporting friends.

That's nothing. Mark Turner of Maryville has two white 'possums that were sent to him quite awhile ago by some Kansas City friends. You ought to see them, boys and girls.

They are as fat and lazy as 'possums ought to be and don't like it a bit to be disturbed. But the 'possums are not any attraction at all compared with his five wee white baby mice that haven't their eyes open yet. They are so tiny and cute that one can't tell how little and cute they are. They are about three-quarters of an inch long and are just as clean, and their weeny toes so pink that they are the daintiest things one can think about. They are sleeping these days, and when they begin to see some funny things are expected. The little father and mother mice are quite small as mice go, and they have lots of fun running about the cage and playing spin, at least that is supposed to be the game, for they spin around and around so fast one wonders how they do it. They go as fast as a top, almost.

We went in to see Mark's menagerie yesterday and it was certainly funny to hear all the animals and birds and things that are there. The minute Mr. or Mrs. Turner step in the monkeys begin to chatter and the parrots to shriek and make a fuss, especially the rose parrot. She has a beautiful rose comb that she spreads and raises up high with pride, and she certainly looks nifty in the soft rose colored feathers that cover her neck and come down over her shoulders. All the rest of her feathers are a soft gray, and she is real modest looking when she is sitting quiet. The other parrot is all white, excepting a yellowish tinge to her comb, which she likes to fuss up when anybody comes.

The monkey they call "Grandpa," looks like a little old man. He puts his hand through the cage and slaps it on the table to attract attention, just as a person would do, and he gets it. Then he begs in an inimitable way for nuts and candy, and then turns every kind of a somersault in return for them. He likes to drink out of a cup by himself, and when he has a piece of bread he dips it in water and soaks it a little to make it soft before eating. He seems to be getting old and his teeth must be defective. Wonder where he learned that trick? The children of Germany are allowed to do that, so he must be a little Dutch monkey.

10-CENT "CASCARETS"

IS YOUR LAXATIVE.

Best Liver and Bowel Cleanser and
Stomach Regulator in the World—
Work While You Sleep.

Get a 10-cent box.

Put aside—just once—the salts, pills, castor oil or purgative waters which merely force a passageway through the bowels, but do not thoroughly cleanse, freshen and purify these drainage organs, and have no effect whatever upon the liver and stomach.

Keep your "insides" pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken, and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have headache, biliousness, coated tongue, indigestion, sour stomach or constipated bowels. Cascarets belong in every household. Children just love to take them.—Advertisement.

There are two monkeys in another cage and they have the time of their lives all the time. One tried to make the other give up his peanut when we were there. He stood him on his head and pummeled him good and slapped his jaws, but Mr. Monkey held on and kept on eating as though nothing very much was bothering him.

Oh, yes. We learned how it happened the groundhog didn't see his shadow and thereby bring six weeks of storm and snow and cold. Mark has all both of them clear back in the dark part of his basement and they didn't have a single opportunity to see their shadows, so Spring will be here soon. They didn't even offer to see their shadows and they are cross if you wake them up. We had never seen one, so Mark punched them up a little and they grunted and were as mad as they could be. By the light of a candle they are not bad looking, just dark, lazy and ugly looking, but their stand up fuzzy fur makes them look funny.

The badger that came not long ago from North Dakota is real good looking if only he would behave better. But he growls and flattens himself like he was dying to get at you and eat you up, and we went off and left him. The prairie dogs, the black eagle, and the alligator that hasn't had a bite to eat since last October, he'll begin in March though, had something interesting

about them. But the monkeys and parrots were by far the funniest things of all. They could cheer up the whole world if they wanted too. But those cute little mice are the funniest things ever.

Now don't all you boys and girls go at once to see them. Wait till they get their eyes open and can play spin with their father and mother. And don't all go at once. MUNITIONS TAKEN OVER LINE

Initial Shipment Since Embargo Lifted
Hauled Across Bridge.

El Paso, Tex., Feb. 5.—The first shipment of arms since the embargo was lifted by President Wilson was hauled across the bridge from El Paso to Juarez in an express wagon. The wagon contained only 37,000 rounds of ammunition and seventy rifles, representing the entire stock of a local dealer, but large quantities of fighting weapons have been ordered by rebel agents, and are soon to be shipped south for the rebel attack on Torreon.

Orders to permit the passage of arms to the Mexican belligerents were received by both the United States army and customs officials. The order came so suddenly that the rebel leaders at Juarez were unprepared for it, for, they said, had they been prepared large supplies would have been held in readiness on the American side. It was stated that the next few weeks will witness shipments to Juarez as rapidly as carloads can be brought to El Paso.

WOULD FORCE ANSWERS

Commission Tells Why It Wants Data From Armour Lines.

Chicago, Feb. 5.—The United States district court was asked to compel Frederick W. Ellis, vice president of the Armour car lines, to answer questions propounded by the interstate commerce commissioners relative to the business done by his company.

The clash between the car line official and the interstate commerce commission came in the inquiry by the commission into private car lines.

The petition recites that because of evidence given the commission concluded that it was its duty to inquire into the relations of the private car line and the packing company, to determine whether concessions in rates were being given and received.

The commissioners set forth they desire to ascertain whether Armour & Co. was controlling the Armour car lines through stock ownership or other means and using them as a device to obtain concessions in the published rates of transportation. They also seek by the questions to learn whether the packing company obtained rates less than those paid by others for like service, or whether the Armour car lines was receiving unreasonable compensation from railroads for refrigeration service which inured to the benefit of Armour & Co.

The wets are paying for the band, while the dries are having church bells tolled in an effort to drown its music.

They went immediately after the ceremony to the home of the bride's parents, near Ravenwood, and will be at home to their friends the coming summer with Mr. Haller's parents, southwest of Wilcox.
